Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a printing system comprising a printer including a set of printer and media specific imaging actions specific to the printer and to its supported media for printing image objects, and a printer control device with a user interface having a first option for associating printer-independent print quality characteristics with a selected object type to be printed by the printer, wherein a printer independent print quality characteristic comprises an instruction for indicating a feature of an image object to be preserved during rendering which is both printer independent and media independent, and wherein each printer independent print quality characteristic has associated with it at least one printer specific imaging action from the set of printer specific imaging actions for printing the selected object type, as claimed in claim 1. Similar features are claimed in claim 8. Therefore, claim 8 is allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
